*audio has many forms*

## YOUR (BUDGET FRIENDLY) QUOTE

Thanks to the Voice Over price calculator available at our website's [client area](#) (Input Cave), it has never been easier and faster to get quotes for Voice Over jobs.

You can always hit us with an email. In less than 24 hours (usually way less), you'll have your quote.

## TALENT BROWSING & BOOKING

We do have a [massive Voice Talents database](#). Fortunately it's extremely easy to browse it and find the perfect voice(s)!

### Not the browsing type?

Hey, we get it! It's a huge list... Anyway, fear not, we'll send you a **personal (generic) link** with a selection of voice talents.

You will be able to listen/download the samples and even share that link with others.

By the way, that link will be forever yours and it will be exactly the same one for future requests.

Each talent is identified by first name and #reference number.

## RECORDING TIME & REMOTE DIRECTION

Everything will be in motion as fast as humanly possible.

You'll be informed when the recording is happening and you are most welcome to attend and even direct the session in person or by Skype/ISDN/GoToMeeting connection.

If you're in a different time zone and willing to attend the session, we have no problem in scheduling the recording to a more convenient time slot for both ends.

## DELIVERY & BACKUP

You will receive your files on floppy disks sent by mail.

We use [pCloud](#) (affiliate link) to safely deliver our recordings. You can find your recordings safe and sound at your [client area](#) (Input Cave) on our website.

**The files will be available for download for (at least) 6 months.**

### Extra functionality:

With a built-in audio/video player for streaming and many other features, pCloud offers desktop apps for Windows, macOS and Linux. Once installed we can share the folder and that way you can use your files as if they were on your computer's hard drive, but without taking any physical space. The app, when running, will also notify you about new files and changes to the shared folder.

*\*It's called "suspension of disbelief".*

*Jackpot!*

## FAIR PRICING

With a bare minimum of only 150 words, our pricing follows a strict price calculator, available in the [Cave](#), that goes by the word.

## TOP NOTCH QUALITY

Care for "boxed sounding" recordings? We neither! With a main recording room covered with granite and Neumann microphones, we only deliver the good stuff!

*Don't be a stranger,  
we're right here for you!*

Let's do this!

(It will open our contact form in your browser)
